## The Preferred EDI Solution Provider for B&L Odyssey ERP

Are you looking for a tightly integrated EDI solution that productively manages the data exchanged with your trading partners, while tracking related priority activities?

Radley, a CAI Software company, offers iR\*EDI, a powerful, cost-effective EDI solution that integrates seamlessly with B&L Odyssey ERP. iR\*EDI offers Odyssey users a number of advantages, including support for XML and web services. iR\*EDI includes several modules that work together to maximize your productivity.

The iR\*EDI platform effortlessly plugs into Odyssey gateways. Don't tie up precious IT resources to EDI; let Radley's knowledgeable staff economically map, test and certify your customers' EDI specifications. iR\*EDI implementation is simple and quick.

With Radley's EDI solution comes a user-friendly, robust dashboard that allows users to view up-to-the-minute graphical displays of your EDI operations and key performance indicators with Radley's Business Activity Monitor (BAM). This powerful EDI dashboard tool includes preconfigured displays developed with other iR\*EDI users, and is essential for customer service, production planning, and shipping personnel.
